

STUDENT BEHAVIOUR POLICY

1. PURPOSE

Blackburn College recognises that it has a legal and moral duty to provide a safe and secure learning environment for its students, staff and visitors. We all agree that mutual respect and tolerance should be encouraged and supported amongst the whole College community. A College wide commitment to improving behaviour will lead to greater learner engagement, better support for staff and fewer incidents of negative behaviour. It is vital as a college that we recognise and celebrate the achievements of our students to create an environment which encourages and rewards success.

The purpose of this policy is to set out the standards and expectations of behaviour of all students and also support staff when challenged by unacceptable behaviours exhibited by individuals or groups of students. The policy outlines the expectations we have of our students' behaviour and the associated consequences of failing to meet those expectations. It extends to all students and is written in line with the principles set out in 'The Pledge'. Good behaviour and self-discipline support effective learning, and are vital for students both during and after their college years.

- 1.1 The College recognises that disruptive behaviour can often be an indication of unmet Social Emotional Behaviour Difficulties (SEBD) and/or Social Emotional Mental Health (SEMH) needs. Any formal response to a student's behaviour will always consider any factors that are influencing those behaviours. In such cases, early intervention is essential to reduce the need for any subsequent exclusion or formal interventions. In this situation the pastoral support teams may consider a multi-agency assessment or referral that goes beyond the student's educational needs.
- 1.2 The College understands that the first step to modelling good behaviour is leading by example. This means that all staff, volunteers, and visitors to the College must act professionally, responsibly and with integrity. We work hard to ensure that discipline is consistent across the College so that behaviour boundaries and sanctions are clear to all and are applied fairly, proportionately and without discrimination or prejudice, considering Special Educational Needs and Disabilities (SEND), as well as any additional challenges that some vulnerable students may face.

2. SCOPE

- 2.1 The principles in this Policy apply to all students on all programmes across college in both Further and Higher Education. The College will apply the principles in this policy to all students whatever their mode of study. This Policy also applies to pupils on roll at school and 14-16 provision.
- 2.2 This policy will be applied to all learning programmes across the College within further education (FE) and higher education (HE), including apprenticeships and alternative provision
- 2.3 In operating this policy, the College recognises:
- The right of the student to advocacy and the benefits of working in partnership with parents, carers, guardians, employers, health and/or social care services and other relevant external agencies.
 - The right of appeal against any decision of disciplinary action.
 - The care required in carrying out investigations and the importance of establishing the facts relating to any alleged breaches of the code of conduct.
 - The strict confidentiality required when dealing with disciplinary issues in line with General Data Protection Regulations (GDPR).
 - That not all students have the same access to digital technology and therefore adjustments will need to be made as appropriate.

3. OBJECTIVES

Principles and Approach

- 3.1 Blackburn College sets high expectations for the standards of behaviour of all our students and apprentices. Shared values, fair and consistent application of rewards and sanctions, and excellent teaching and support are pivotal to promoting positive behaviour and raising achievement.
- 3.2 All teaching staff should agree the standards and values expected/required from students and staff during the year. Once the group has agreed the values, they should be made clearly visible and applied consistently. This applies to classrooms in college and online teaching forums.
- 3.2 Blackburn College is committed to ensuring that our College environment supports learning and promotes the wellbeing of students and staff through a strong sense of community cohesion. The role of the College is to create a safe and secure environment for all students

so that they discover, or rediscover, their curiosity for learning and build their confidence. Cooperation, support, and respect are the foundations of our community and we work hard to provide a safe College where students feel included in every aspect of College life and are comfortable to voice their opinions.

- 3.3 The College has shared expectations regarding positive behaviour which are clearly set out in 'The Pledge'.
- 3.4 These expectations are encapsulated by the 'Blackburn College '3 Rs' approach.
- 3.5 Students are expected to adhere to the '3 Rs' in the classroom, the workplace, anywhere on College premises and during such off-campus activities as field trips and community projects. All staff are expected to remind students and define clear expectations throughout the year.
- 3.6 Tutors are responsible for managing behaviour in the classroom, but all College employees provide a supportive presence around the College campus and will challenge any students who do not use the College grounds respectfully and behave appropriately.
- 3.7 Effective classroom management by the tutor is crucial as this underpins positive behaviour for learning and contributes to the wider community cohesion across the College. The following tips will assist you to manage positive behaviour as the 'classroom manager'

Contact with Parents and Carers & Employers:

- 3.12 For many students, their parents and carers play a big part in ensuring that the student is responsible for their own behaviour in college. Where appropriate, we will ask parents and carers (or where an apprentice is involved the employer) to work with the college to support learning. This includes informing the college of any special education needs or personal factors that may result in a student displaying certain behaviours. We will invite parents and carers and where an issue is in relation to an apprentice the employer will also be invited to attend meetings at the college with staff to discuss any behaviour issues early and to support any behaviour improvement contracts that are put in place. For students over the age of 18, parents/carers/employers will only be contacted with the consent of the student and where it is appropriate to do so.
- 3.13 We work with parents and carers/employers to understand the needs of the student and any specific behaviours. We believe that, in conjunction with behaviour boundaries and sanctions, good support systems, praise, and rewards for good behaviour are an important part of building an effective learning community. Where appropriate, the college provides regular reports to parents, carers and employers via the student management system, telephone, and at parent/carer events.
- 3.14 We encourage parents, carers and employers to communicate with the college if they have a concern about the student’s behaviour. We promote good behaviour within the college

curriculum and provide regular reminders and reinforcement of college rules and expected standards of behaviour.
