# Championing Sustainability

Blackburn College

1. Review Plan to address sustainability annually
2. Established sustainability system in place by 2025
3. Leader to FE industry on sustainability 2028
4. 50% net-zero reduction by 2030
5. 75% net-zero reduction by 2040

2024 - Implement sustainable processes with impact evaluations to report progress and start integrating sustainability into both academic and non-academic domains.

Reach Net Zero by 2050 using FE Road map
